

For Immediate Release

**TurboJET growing with Macau for 45 years
Today celebrates the debut of a Modernized Image**

(October 24, 2007- Macau) Having grown with Macau all these years, TurboJET has become an integral part of citizens' life. In celebration of its 45th Anniversary, TurboJET is set to unveil a contemporary new look as well as a series of new services to bring the best of journeys to every customer traveling with us.

Marking this special occasion, a cocktail celebration is hosted today by Shun Tak-China Travel, and the new image is unveiled by the Director of Secretariat for Transport and Public Works, Mr. Lau Si lo and Chairman of Shun Tak-China Travel Ship Management Ltd, Dr. Stanley Ho.

Heading Forward with A Futuristic Design

Macau tourism is surging at an unprecedented rate, with travelers' numbers booming and the cityscape undergoing a great transformation. At the dawn of this new era, TurboJET is coming out with a new image, where the sleek and avant garde logo design can better reflect our efficient and reliable services, and at the same time, better represent its dynamic spirit as it advances into the future.

TurboJET is investing over 10 million dollars to convert its fleet into a "race car red", as well as to publicize the new look in a range of electronic and printed media. CEO and Director of Shun Tak- China Travel, Ms. Pansy Ho, remarked "the new logo is both energetic and futuristic; it represents our determination to improve and forge ahead, it also reflects our confidence in the future of our city."

Introducing More Convenient Services

To cope with rising market expectations, Turbojet is dedicated towards constant improvements. After introducing the online reservation system and upstream airline check-in service last year, a myriad of new services are now being launched:

Anytime Macau comes to mind, whether for leisure or business, passengers can log on to the TurboJET reservation system via mobile phone devices any time of the day and book tickets with credit cards. In addition, TurboJET will soon be launching a revamped website to facilitate information searches, so that global travelers can better make use of its services, providing a truly genuine international platform to support future business developments.

As travels across the Pearl River Delta becomes more frequent, TurboJET is coming out with an all new Personal Stored Value Card, where passengers can enjoy special privileges such as discounts, bonus points, advance reservation and priority seating on early departures. Customers can have tickets issued at Automatic Ticket Dispensers to save time in lineups.

Now, passengers at the Hong Kong Macau Ferry Terminal can enjoy complimentary porter service, or choose to store their luggage then have them directed to the vessel for hassle-free boarding. In addition, passengers who have already purchased tickets can choose to depart on an earlier sailing or upgrade to Super Class for better flexibility.

Looking forward, TurboJET will be further reinforcing its fleet and will be introducing enhanced services with a long-term dedication towards serving the city's transportation needs. As always, we are sailing for Macau!
